

# TECHNICAL SPECIFICATIONS

Apparent density	2240 kg/m <sup>3</sup>
Form tolerances Length and width	0,6%
Form tolerances Thickness	+ - 2mm
Flexural Strength	TT
Break load	1880 KN
Compression resistance	75 MPa
Slip resistance	R9 (honed 320er)
Water absorption	< 8 M-%
Reaction to fire	A1 fl
Concrete quality	C 30 / 37

All products from Basis Rho are works of art. The technical values serve as a guide.

## FINISHES

honed

brushed

on request with impregnation for an oil and water repellent surface
